### The Efficiency Paradox: What Big Data Can't Do

by Edward Tenner  
Call no.: English 658.515 TEN -[BIZ]

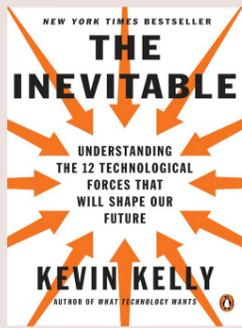

All rights reserved, New York:  
Alfred A. Knopf, 2018.

This book questions our assumptions about efficiency, showing how relying on algorithms can lead to wasted efforts, missed opportunities, and an inability to break out of established patterns. Tenner offers a smarter version of efficiency - what we can learn from the random and unexpected, when equipped with an astute combination of artificial intelligence and trained intuition.
